

KiddyKeys® Makes Learning Music Concepts and Life Skills Fun for Preschoolers

"Music is a moral law. It gives soul to the universe, wings to the mind, flight to the imagination, a charm to sadness, gaiety and life to everything. It is the essence of order and lends to all that is good and just and beautiful." --- Plato

At KiddyKeys® we believe in **making every child a star!** KiddyKeys® is a **highly educational** program that focuses on **teaching piano concepts and music appreciation** to children 2 ½ to 5 years old. By appealing to **individual learning styles**, this program enables your child to **explore the piano and easily learn music concepts**. It's a great way to **prepare your child for school!**

The KiddyKeys® program offers so many wonderful learning opportunities:

- Rhythm and movement exercises that develop **small and large motor skills**
- Recognition of **notes and note values**
- **Memory skill building** through repeated music terminology
- Counting exercises to help recognize numbers and develop **math skills**
- **Creative development** through sound composition and exploration
- Introduction to the **music staff and piano keyboard**
- Development of **verbal skills** through group interaction
- Reinforcement of **listening skills** by discerning high and low, loud and soft sounds
- Improved **hand-eye coordination** through hands-on experience with rhythm instruments and the keyboard
- Recognition of the **music alphabet, colors, and shapes** with worksheet activities
